

エコチル調査 国際シンポジウムのお知らせ

International Symposium on Birth Cohort Studies:

Japan Environment and Children's Study (JECS) & National Children's Study (NCS)

全国 10 万組を対象とした日本最初の大規模な出生コホート調査、「子どもの健康と環境に関する全国調査 (エコチル調査)」。アメリカでも同様の調査が開始間近である。2 つの調査の現状・今後の展望・国際連携について概説・討論する。

Launched in January 2011, the Japan Environment and Children's Study (JECS) is one of the largest longitudinal birth cohort studies in the world. The Study is aiming at 100,000 recruitments of pregnant women in Japan and will follow up on the health of the children until they reach 13 years old. Kochi Unit Center is one of fifteen Unit Centers which spread all over Japan.

Prof. Fujio Kayama, Head of the Tochigi Pilot Unit Center, will present activities at his Center and risk communications concerning the radiation from Fukushima Dai-Ichi. We will also have Dr. Scott Collinwood and his colleagues, Leslie Palmer and Doug Tharp, from the University of Utah, which has two study sites conducting the National Children's Study (NCS)—another longitudinal birth cohort study currently in the Vanguard (pilot) Phase in the US. The presenters will provide a chronological history of the progression of the Study including operational activities at their Salt Lake County and Cache County study sites. Topics covered will include an operational overview, recruitment methodologies, data collection strategies, data storage, and retention efforts.

A question & answer and discussion session will follow after the presentations.

<Program>

Chairperson: Prof. Narufumi Suganuma – Kochi Medical School (KMS), Kochi University

1. The Japan Environment and Children's Study at Kochi Unit Center (30 min)

Kahoko Yasumitsu-Lovell, MA/MS, Marina Minami, MA,
Eri Hoshino, MPA, Masamitsu Eitoku, PhD
Prof. Takao Fukaya, MD PhD, Dept. of Obstetrics/Gynachology
Prof. Hiroshi Wakiguchi, MD PhD, Dept. of Pediatrics
Prof. Narufumi Suganuma, MD PhD, Dept. of Environmental Medicine

2. The pilot study of the JECS at Jichi Medical University (30min)

Prof. Fujio Kayama, MD PhD. Div. of Environmental Toxicology, Dept. of Pharmacology, School of Medicine, Jichi Medical University

3. The National Children's Study—An overview of the experience and activities at the University of Utah Study Sites (40min)

Scott Collinwood PhD, Leslie Palmer MSPH, Doug Tharp MA

4. Questions and Comments (20min)

<Time & Date 日時>

@18:30-20:30, Monday, the 14th of November, 2011

2011 年 11 月 14 日(月) 18 : 30 ~ 20 : 30

<Venue 場所>

Multi-purpose Room, 1F, Nursing Department Building

(Please check the website below for the map.)

看護学科棟 1 階 多目的室
