

International Symposium on Interdisciplinary Science 2019

Room 137, Asakura-campus, Kochi University

28th February 2019

Organized by Divisions of Interdisciplinary Science

13:20 ~ 13:30 Opening remarks

13:30 ~ 14:30

“Manipulating textures of thermotropic and lyotropic liquid crystals using various additives”

Assoc. Prof. Sukrit Tantrawong

Faculty of Science and Technology, Thammasat University, Thailand

14:35 ~ 15:35

“Binding interaction of PDGF-BB aptamer for application in molecular recognition”

Assist. Prof. Boonchoy Soontornworajit

Faculty of Science and Technology, Thammasat University, Thailand

15:45 ~ 16:45

“Novel Nanoparticles Based Nanomachineries for Cancer Diagnostics”

Assoc. Prof. Muhammad J. A. Shiddiky

School of Environment and Science, Griffith University, Australia

16:50 ~ 17:50

“Polyoxometalates, redox properties, surface immobilisation strategies and applications”

Prof. Tim McCormac

Dundalk Institute of Technology, Ireland

17:50 ~ 18:00 Closing remarks

会場: 高知大学朝倉キャンパス
共通教育棟137番教室
