## Prof. Namba has been granted 2013 research award sponsored by Mochida Memorial Foundation for Medical and Pharmaceutical Research.

Prof. Namba has attended Mochida Memorial Science Award Ceremony at The Tokyo Bankers Club in November 7<sup>th</sup>. He has been granted 2013 research award for drug discovery and clinical application sponsored by Mochida Memorial Foundation for Medical and Pharmaceutical Research.

## His research objective is "Understanding the molecular mechanisms of anti-cancer drug resistant in pancreatic cancer and screening the drug using in clinic, which resensitized pancreatic cancer to anti-cancer drug".

It aims to enhance basic research by understanding molecular mechanism of gemcitabine-resistance in pancreatic cancer and hence accelerate the drug development process by drug repurposing.

研究助成金贈呈書 難波 卓司 殿 領域6 創薬とその臨床応用に関する研究 あなたの研究は今後の科学技術の 発展に貢献し我国の医療及び保健の 向上に資することが期待されます ここに持田記念研究助成金を 贈呈し今後の発展を期待します 平成26年11月7日 公益财田法人持田記念医学薬学振興財团 理事長渡辺 進
