

Poster Presentation

P-1	Operation Characteristics of biological aerated filter using walnut shell as the media <i>L. Dong, S. Ding, L. Xie, L. Cai, L. Jia</i>
P-2	A study on characteristics of influent loading and treatment performance of rural sewerage facilities <i>Y. Li, T. Nakano, J. Yasumoto, M. Abe, K. Hata</i>
P-3	Degradation of polyvinyl alcohol (PVA) in textile wastewater by <i>Microbacterium barkeri</i> KCCM 10507 and <i>Paenibacillus amylolyticus</i> KCCM 10508 <i>J. Chung, S. Kim, H. Lim, J. Kim</i>
P-4	A comparison of microbial community dynamics in the mesophilic and thermophilic methane fermentation of chicken manure <i>Q. Niu, K. Kubota, Y. Li</i>
P-5	UASB treatment for hard wastewater from corrugated paper industry <i>A. Kumami, S. Osumi, M. Takaoka</i>
P-6	Development of high-rate treatment system of palm oil mill effluent (POME) <i>D. Tanikawa, A. A. Roaf, K. Kubota, T. Yamaguchi, K. Syutsubo, Y. Sekiguchi, M. F. M. Yunus, S. S. Chen, H. Harada</i>
P-7	Effect of return compost inoculation on initial phase of composting <i>S. Ochiai, T. Ishigaki, M. Yamada, H. Kaneko</i>
P-8	Elution of P, Cu, Zn and color from swine wastewater activated sludge under various pH conditions <i>M. Waki, T. Yasuda, Y. Fukumoto, K. Suzuki</i>
P-9	Effect of ammonium concentration on nitrogen removal and power generation in a microbial fuel cell with nitrifying biofilm on the air cathode <i>T. Watanabe, K. Kubota, K. Sato</i>
P-10	Grey water treatment by slanted soil system under real conditions in rural area <i>H. Amadou, Y. Maiga, M. Sou/Dakoure, A. Abdou, A. H. Maiga</i>
P-11	Decolorization and degradation of dyes in wastewater by ligninase of white rot fungi <i>H. Komatsu, K. Katou, S. Horisawa</i>
P-12	Improvement of polysaccharide degradation in thermophilic L-lactic acid fermentation with kitchen garbage and high-yielding rice <i>Y. Kusuda, F. Nishimura, C. Shinomoto, Y. Takabe, T. Mizuno, T. Hidaka, H. Tsuno</i>
P-13	Solar photo-Fenton degradation of dye wastewater: Saliency analysis of process factors <i>W. S. Kuo, J. S. Jou, M. T. Li</i>
P-14	Treatability of textile dyebath effluents by thermally-activated persulfate and peroxymonosulfate processes <i>T. Olmez-Hanci, I. Arslan-Alaton, O. Tunay, C. Ecer</i>
P-15	Cs sorption and retention by four types of minerals in leachate from landfill sites <i>Nao K. Ishikawa, M. Kuwata, A. Ito, T. Umita</i>
P-16	Microwave-assisted thermo-chemical hydrolysis of cattle manure with the addition of food waste water <i>J. M. Lee, I. G. Byun, J. H. Lee, J. S. Lim, S. H. Lee, T. J. Park</i>
P-17	Decomposition kinetics of aqueous sulfamethazine by the ozonation process <i>L. C. Chuang, C. H. Luo, S. Yang</i>
P-18	Decomposition of PFCs in N <sub>2</sub> atmosphere enhanced by activated carbon and alkali addition <i>M. Takata, S. Takemine, K. Yamamoto, N. Watanabe</i>
P-19	Adsorptive removal and photocatalytic degradation of sulfamonomethoxine in porcine urine using rotating advanced oxidation contactor with composite TiO <sub>2</sub> -Zeolite sheet <i>M. Hyodo, S. Fukahori, T. Fujiwara</i>
P-20	Study of photodegradation of tetracycline in aqueous solution by UVC and UVA irradiation: kinetics and mechanisms <i>Y. H. Wang, K. C. Chen</i>
P-21	Recycling type of water purification system with hydroponic culture to apply the floating aquatic plants of water spinach in Kochi, Japan <i>M. Fujimaki, A. Chikami, T. Mouri, S. Nishimura, M. Murakami</i>
P-22	Struvite crystallization for the removal of nitrogen and phosphorus in supernatant from anaerobic fermentation <i>J. Chung, S. Kim, S. P. Kim, J. O. Kim</i>
P-23	Removal of ammonium-nitrogen from rural sewage effluent by biogeofilter channel vegetated with <i>Sesbania cannabina</i> <i>K. Okano, Y. Shida, T. Shibata, K. Susa, N. Miyata, Y. Ozaki</i>
P-24	Phosphorus recovery from highly-concentrated phosphate-ion groundwater by calcium-carrying chaff charcoal <i>M. Noormazni, J. H. Kim, S. Harada, S. Narita, K. Takahashi</i>
P-25	Recovery of phosphorus and potassium from corn biomass as a magnesium salt <i>H. Nagare, T. Iwata, A. Ebi, T. Fujiwara, S. Akao, M. Maeda, D. Yasutake, S. Yamane</i>
P-26	Extraction optimization of a mucilage extract from the processing waste of <i>Citrus grandis</i> Osbeck using response surface methodology <i>L. S. Lai, M. T. Tsai</i>
P-27	Feasibility of microalgal biomass production in wastewater using <i>Aphanothece clathrata</i> and <i>Microcystis wesenbergii</i> . <i>J. Yamamoto, N. Kishimoto, S. Ichise, S. Furuta</i>
P-28	Effects of feedstock and pyrolysis temperatures on nitrate adsorption of biochar as soil amendment <i>K. Kameyama, T. Miyamoto, Y. Iwata, T. Shiono</i>
P-29	Evaluation of heavy metals in the residue of paper sludge after recovery of pulp components using an ionic liquid <i>J. H. Jeong, M. Takaoka, H. Ichiura, K. Oshita, T. Fujimori</i>
P-30	Application method of digested liquid using perforated hoses for sugarcane cultivation <i>A. Tanaka, N. Yamaguchi, K. Kuroda, T. Hikosaka, M. Inokuchi, K. Ujihara</i>
P-31	Chemical analysis of organic waste as potential resource for local sustainable management <i>T. Ishigaki, M. Nakagawa, M. Ito, K. Tachio, T. Fujiwara, M. Yamada</i>
P-32	Enhancement of removal rate constant (K <sub>20</sub> ) by recycling wastewater from <i>Hybrid Catfish</i> aquaculture <i>J. Yimrattanabovorn, S. Sudsaen</i>
P-33	Raw and treated coal fly ash amendment aiming for water holding capacity adjustment of natural soils <i>S. Lin, F. Takahashi</i>
P-34	Application of magnetic activated sludge process for a milking parlor wastewater treatment and nitrogen/phosphate recycle <i>T. Onodera, Y. Sakai, M. Kashiwazaki, I. Ihara, M. L. Saha</i>

Poster Presentation

P-35	Ultrafiltration by a super-hydrophilic regenerated cellulose membrane <i>M. M. Naim, A. A. El-Shafei, A. A. Moneer, M. M. Elewa</i>
P-36	Gene expression analysis of <i>Sphingobium fuliginis</i> OMI, isolated from the rhizosphere of <i>Spirodela polyrrhiza</i> , for the elucidation of symbiotic mechanism <i>K. Sei, M. Fukasawa, K. Kubo, S. Akaike, R. Saitoh, D. Inoue, M. Morikawa</i>
P-37	A comparative study of Ar/O <sub>2</sub> gas-liquid electrical discharge plasma in treating synthetic dyeing wastewater <i>Y. Xin, L. Zhou, Hafiz. I. A. Qazi, H. Li, Q. Nie, C. Bao</i>
P-38	The effect of sludge particle size on the uptake of Cs-137 by a leaf vegetable, <i>Brassica rapa</i> var. <i>perviridis</i> <i>N. Ishii, K. Tagami, S. Uchida</i>
P-39	Effect of organic loading rate on alkaline pretreatment combined with thermophilic anaerobic sludge digestion <i>B. Wichitsathian, W. Wonglerarak</i>
P-40	Degradation of veterinary antibiotics during anaerobic digestion of dairy manure <i>Y. Kitazono, I. Ihara, K. Toyoda, K. Umetsu</i>
P-41	Removal of ammonia from aqueous solution for swine wastewater with swine manure compost-based char <i>Y. Dote, T. Sekito, K. Ueda, R. Sakamoto, T. Suzuki, S. Sano</i>
P-42	Effect of seed sludge on the survival of antibiotic-resistant bacteria in dairy cattle manure during batch anaerobic digestion <i>T. Takemura, I. Ihara, K. Toyoda, M. Iwasaki, K. Umetsu</i>
P-43	Effect of slurry and compost, as alternatives to chemical fertilizer, on sugarcane yield and soil fertility in Okinawa Island <i>N. Yamaguchi, K. Ujihara, T. Sakaigaichi, A. Tanaka</i>
P-44	High strength organic matter removal of swine farm wastewater by foam separation as pre-treatment of the biological oxidation system. <i>T. Sugiyama, Y. Shiraiwa, S. Nakamura</i>
P-45	Role of organic nitrogen and carbon in canal sediments on drainage water in paddy fields <i>T. Hama, C. Jikumaru, T. Nagai, Y. Kawagoshi, D. Iwasaki</i>
P-46	TOC based non-biodegradable organic matter ratio and degradation trend of swine manure <i>Y. Lee, S. W. Oa</i>
P-47	Attenuation of nitrate and chloride impacts in porous media by use of rice and food residues <i>S. Matsuyama, K. Inoue, T. Tanaka</i>
P-48	Effect of covering sediment with oyster shells on internal load in fresh water area <i>M. Kondo, Y. Kato</i>
P-49	Risk evaluation system for nitrate pollution of groundwater at a river-basin scale <i>S. Itahashi, K. Asada, R. Urakawa, K. Aoki, S. Eguchi, H. Katou</i>
P-50	An assessment of impact of ammonia volatilization on the water environment from intensive poultry farming in western Japan <i>Y. Shimizu, K. Matsumori, M. Shimura, S. Watanabe, H. Mochizuki, G. Ishioka, Y. Kasahara</i>
P-51	Ability of irrigation pond to decrease concentrations of pharmaceuticals in reclaimed wastewater <i>B. Sugata, T. Kume, Y. Nakaya, S. Haruta</i>
P-52	Indirect effects of insecticides imidacloprid and fipronil on nitrogen dynamics in a rice paddy field <i>S. Yada, S. Eguchi, Y. Nakajima, K. Asada, D. Hayasaka, K. Goka</i>
P-53	Vertical distribution of sediment phosphorus from Lake Hachirogata; considering land reclamation effects on phosphorus accumulation. <i>G. Jin, S. Onodera, M. Saito, Y. Maruyama, A. Hayakawa, T. Sato, Y. Ota, D. Aritomi</i>
P-54	Leaching of lead, cadmium and arsenic during anaerobic digestion of contaminated agricultural substrates <i>J. Effenberger, V. Kuehn</i>
P-55	Assessment of indirect influences of compost/organic fertilizer on the growth characteristics of salt-tolerant crops and groundwater <i>S. Nishimura, T. Mouri, T. Nakaso, N. Hijikata, M. Fujimaki, M. Murakami</i>
P-56	Technical and socioeconomic aspects of multiple biowaste recycling system linked with value-added organic agriculture <i>J. Matsushita, T. Miyashiro, S. Matsui, N. Nakagawa, N. Sugiura, M. Goto</i>
P-57	Application of pre-harvest temporal flooding in a catch crop field and its effects on evapotranspiration and nutrient salt uptake by roots <i>D. Yasutake, K. Awata, K. Kondo, S. Yamane, M. Matsuoka, M. Maeda, H. Nagare, R. Nomiya, Y. Sago, M. Kitano, T. Fujiwara</i>
P-58	Environmental monitoring of PRTR specified pesticides in urban river water of Japan <i>S. Miho, T. Kameya, T. Kobayashi, K. Fujie</i>
P-59	Quantitative analysis of radioactive cesium in decontaminated paddy fields <i>M. Shin, T. Kubota, K. Hamada, T. Hitomi, T. Ota</i>
P-60	Effective use of biomass resources for tomato production in a sewage treatment plant <i>Y. Sago, K. Uchimura, H. Kamahara, Y. Atsuta, T. Tokairin, M. Saigusa, H. Daimon</i>
P-61	Beneficial effects of Yuzu ( <i>Citrus junos</i> ) peel waste-supplemented diet on the meat quality of cultured Yellowtail ( <i>Seriola quinqueradiata</i> ) <i>K. Morioka, N. Nakatsuji, M. Nakanomae, H. Kugishima, K. Adachi, T. Miyasaki, K. Miura, H. Fukada</i>
P-62	Effects of Yuzu ( <i>Citrus junos</i> ) peel on differentiation of bovine mesenchymal stem cells derived from subcutaneous tissue <i>K. Matsukawa, S. Kasamatsu, S. Nojiri, M. Ishioka, S. Nanba, H. Muramatsu, S. Nagata</i>
P-63	Temporal and spatial variations of nitrous oxide in a full-scale anoxic/oxic process with three-step feeding <i>Q. Zhang, X. Chen, H. Tsutsui, T. Fujiwara, F. Nishimura, S. Ishikawa, S. Ding</i>
P-64	Application to the new biosensor using marine luminous bacteria <i>H. Kuwahara, J. Ninomiya, H. Morita</i>
P-65	A study on characteristics and influent factor of groundwater quality in limestone aquifer, Okinawa, Japan <i>K. Hijikawa, J. Yasumoto, T. Hosono, T. Nakano</i>
P-66	Compilation of physical input-output Table for regional biomass flows in Kochi Prefecture, Japan <i>M. Yamada, T. Ishigaki, K. Tachio, T. Fujiwara</i>
P-67	Changes of indicator microorganisms in dam reservoir and two different delivery routes for irrigation <i>K. Hamada, E. Shiratani, T. Kubota, T. Hitomi</i>
