

Name	<i>Yukio Kurihara</i>	E-Mail	<i>kurihary@kochi-u.ac.jp</i>
Position	<i>Professor</i>	Final degree	<i>Ph.D</i>
Research Field	<i>Health and Medical informatics</i>		
Research Interests	<i>Various uses of health and medical information</i>		
Teaching and Supervising			
	Main Teaching Subjects		
	<p>(1) <i>Information Processing (Undergraduate)</i> (2) <i>Healthcare Informatics (Undergraduate)</i> (3) <i>Nursing Informatics (Undergraduate)</i> (4) <i>Application of Healthcare Informatics (Graduate)</i></p>		
	Themes of Supervised Master Theses		
	<p>(1) <i>Analysis of health and medical data</i> (2) <i>Assessment of health and clinical information systems</i></p>		
Research Achievements			
	Recent Publications		
	<p>(1) <i>Y. Kurihara, S. Irino, H. Kataoka: Possibility of Seeing the Trend of Residents' Health Levels from Patient's Data in Hospital Information System. Japan Journal of Medical Informatics, 32(Supplement), 998-1003, 2012.</i> (2) <i>Y. Kurihara: Minimum Patient Information as the Base of Community Health Care. Japan Journal of Medical Informatics, 32(Supplement), 218-221, 2012.</i> (3) <i>Y. Kurihara, S. Irino, H. Kataoka, T. Takao: Problems on deriving long trends of clinical laboratory tests for quasi-healthy persons using clinical data. Japan Journal of Medical Informatics, 31(Supplement), 743-745, 2011.</i> (4) <i>Y. Kurihara, Y. Okuhara, N. Nakajima: Effectiveness of Electronic Nursing Records on Sharing Patient Information among Healthcare Professionals – Objective Assessment Based on Analyses of Access Log. Journal of Japan Society of Kansei Engineering, 8(2), 321-326, 2008.</i></p>		
	Past Important Publications		
	<p>(1) <i>Y. Kurihara, N. Asai, R. Ishimoto, S. Kawamata, S. Nakamura: A survey of the effects of the full computerized nursing records system on sharing nursing records among health professionals. Studies in Health Technology and Informatics, 129(Pt.1), 360-363, 2007.</i> (2) <i>Y. Kurihara, S. Kuramoto, K. Matsuura, at al.: Academic performance and comparative effectiveness of computer- and textbook-based self-instruction. Studies in Health Technology and Informatics, 107(Pt.1), 894-897, 2004.</i> (3) <i>Y. Kurihara, T. Kusunose, Y. Okabayashi, at al.: Full implementation of a computerized nursing records system at Kochi Medical School Hospital in Japan. Computers in Nursing, 19(3), 122-9, 2001.</i></p>		
	Main Presentations at Internal and International Conferences		
	<p>(1) <i>Y. Kurihara, H. Fujii: Acquisition of patient information from nurses by other health professionals under electronic medical record implementation. The 14th World Congress on Health(Medical) Informatics 2013, 2013.</i> (2) <i>Y. Kurihara, S. Irino, H. Kataoka: Usability of Quasi-healthy Subjects Extracted from a Large Number of Patients Registered in Clinical Database of General Hospitals. The 7th Asia Pacific Association for Medical Informatics Conference, 2012.</i> (3) <i>Y. Kurihara, S. Irino, H. Kataoka: Longitudinal Curves of the Different Generations Derived from the Quasi-healthy Patients' Laboratory Data Accumulated at Kochi University Hospital. 2011 AMIA Summit on Clinical Research Informatics, 2011.</i></p>
